

DELTA PATENTS

Training for Patent Professionals

**MOCK EXAMS FOR
EQE 2025**

DELTAPATENTS WELCOMES YOU

Why DeltaPatents Training?

DeltaPatents is a **patent attorney firm** based in the Netherlands with a passion for quality. We provide the highest quality advice and service to public and private companies at various stages of growth from start-up to Fortune 500. Our patent specialists have a deep technological knowledge and extensive industrial experience. Through our education activities, we stay ahead in terms of law changes, case law and procedural requirements.

We are proud to be a leading training organization for the **European Qualifying Examination (EQE)**. Our renowned courses can be followed throughout Europe. We offer a complete range of courses and high quality training material for the EQE. The knowledge and experience gained during more than 15 years of EQE training provides a solid basis for our comprehensive range of training courses in different areas. We offer **Continuing Education of Patent Attorneys** (e.g. patent law update course, a Unitary Patent course, and various IP master classes) across Europe as well as outside. For **R&D** (R&D managers, researchers, developers, inventors, entrepreneurs, IP management, IP coordinators and tech-transfer officers), we provide targeted IP tutorials and several workshops. These can also be organized in-house at your organization, open to other participants or exclusively in-house.

“It was a pleasure to study with such a skilled and nice instructor”

Our **blogs** keep you up-to-date on the EQE, EPO Case law, Patent procedures, Unitary Patent and Patent News.

In 2006 we started **training IP support staff**, culminating in a full training program preparing for the official Dutch Formalities Officers exam. The program includes training modules directed to EPC and PCT formalities. These training modules are offered throughout Europe.

Our training focuses on giving insight and understanding, and ensuring that the acquired knowledge can be practically applied. Unique for DeltaPatents is that we thoroughly train and guide our tutors. For our tutors, training is a profession, mastered by teamwork and frequent involvement in courses. We take feedback of attendants seriously and act on it. For us, quality and customer satisfaction are essential.

DeltaPatents' personal touch

We believe in teaching and treating candidates with a personal touch. You will be trained in small groups, giving ample opportunity to discuss unclear issues in more detail and get personal assistance. Hospitality is important to us. For participants staying in Eindhoven for courses of multiple days, we organize a social event, such as a dinner or a trip to a local place of interest. We welcome contact (e.g. via e-mail, telephone or video chat) with our tutors to ask follow-up questions, to clarify course materials or to report mistakes.

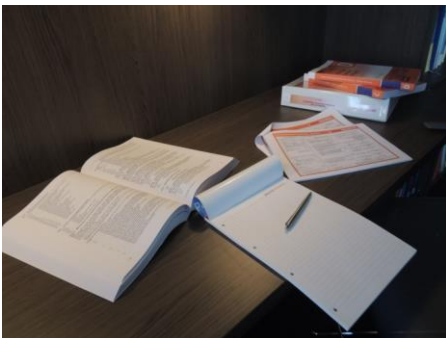

MOCK EXAMS

Objective

Practice a few weeks before the real exam in order to adjust your method, on papers as close as possible to the final exam.

Get an evaluation on your level for each paper, thanks to a personalized marking of each paper, comments and advices from the tutor, in particular on the methodology used and the structure of your answer.

Based on the outcome, make final adjustments to your methodology before the exam.

Course concept

This course is based on mock exams made-up by our tutor Grégory BAQUE, who has been a DeltaPatents tutor to the French-speaking candidates for 10 years. These mock exams focus on recent changes in the exam itself, in the law, and on recurring aspects of the EQE, which could be part of the final exam.

Candidates will practice in real-time conditions on the following papers :

- 2 different mock exams for Foundation Paper
- 2 different mock exams for Main Exam Paper D
- 2 different mock exams for Main Exam Paper C
- 1 mock exam for Main Exam Paper A
- 1 mock exam for Main Exam Paper B

Each one of these mock exams is set-up exactly as the final exam. The structure and timing of each paper is the same as for the final exam, so that candidates can practice in almost real conditions.

At the end of each mock exam, the tutor will provide his answers in a group session, and answer any question candidates may have about the paper.

Documents are provided electronically, with some printable parts. At the end of each exam, candidates will send back their answer electronically.

After a few days, the tutor will send back the papers with a grade, as well as individualized comments (except for paper F where an auto-correction is possible).

Training Materials

Candidates will receive the papers (printable and non-printable parts), as well as a model solution after each mock exam.

Who should attend ?

These mock exams are aimed at candidates preparing for the European Qualifying Examination. It is suitable for both first-time sitters as well as for re-sitters. They require a very good knowledge of the EPC and the legal framework around european patents (candidates should be almost ready to take the exam). It is preferred, but not mandatory, that candidates have followed the various methodology courses provided by Deltapatents.

Course language

All materials and tuition will be in English.
